ABOUT

I'm Sarah, a hybrid Front-end Developer & Designer who has recently relocated to London from New Zealand. I have 2 + years experience working as a UI developer, using technology such as React, TypeScript and Sass. I'm looking for opportunities to build on my React experience where I can begin to explore the functional side of Javascript.

EXPERIENCE

◆ Front-end developer

Catalyst IT Limited

August 2017 - February 2019

- Theme developer for Learning Management Systems
- Designed and developed a reusable theme template that allowed for more streamlined project delivery
- Designed high fidelity prototypes that helped secure a £100,000 project
- Worked across multiple teams as well as remotely for overseas offices
- Liaised with clients to understand their project requirements
- Implemented solutions for cross-browser compatibility issues

◆ Front-end developer & Designer

enrichme

May 2016 - October 2018

- Responsible for creating the look and feel of enrichme along with building the user interface with React, Typescript and Sass
- Worked alongside a UX designer to help understand our audience and how to best create a seamless experience for them
- Translate brief requirements into designs and work alongside fellow developers on implementation
- Produce high fidelity mock-ups from wireframes

◆ Design Tutor

Wellington Institute of Technology

September 2017 - December 2017

- Introduce students to design principles and software in a 17 week Certificate in Creativity course
- Able to present, communicate, and teach design and creative methodologies to new students
- Re-designed existing teaching resources to improve learning outcomes for students

EDUCATION

Diploma of Web Development

July 2015 - May 2016

ACG Yoobee School of Design

Bachelor of Creative Technologies (Digital Media)

March 2012 - November 2014

Wellington Institute of Technology
